

The following requirements are needed during Microsoft Fabric Training:

The following prerequisites and setup must be done for successful completion:

- You must be connected to the internet.
- You must have Microsoft Office installed.
- You must be signed up for Microsoft Fabric: Web Browser to access Fabric Service on <https://app.powerbi.com/>. Google Chrome is recommended and sign up for Fabric with a business email address. If you cannot sign up for Fabric, let the instructor know. If you have an existing account, please use the same URL as above to log in.
- You must have, at minimum, a computer with 2-cores and 4GB RAM running Windows 8, Windows Server 2008 R2, or later.
- If you choose to use Internet Explorer, it will require version 10 or greater. You can also use Microsoft Edge or Google Chrome.
- You must verify if you have a 32-bit or a 64-bit operating system so you can install 32-bit or 64-bit applications. To check your operating system type:
 - o Open Control Panel, click System and Security, and then click System.
 - o You will be able to identify if your operating system is 32-bit or 64-bit based on the System type field as shown in the screenshot below.

You must download the Fabric Content:

- You must download and install Power BI Desktop using any one of the options listed below:
 - o If you have Windows 10, use Microsoft App Store to download and install the Power BI Desktop app.
 - o Download and install the Microsoft Power BI Desktop from <http://www.microsoft.com/en-us/download/details.aspx?id=45331>.
 - o If you already have the Power BI Desktop installed, ensure you have the latest version of downloaded.
